## WHY WORK WITH ME

Because you want a unique way to tell your story, through the city you love and its landmarks. When you order a custom map, you are very much involved in the process. You choose the landmarks that are important to you.

The best part is that you get to keep the final, original artwork to frame and display. If you're requesting a map for an invitation, this serves as a memento of your big event. If your new custom map is for your home, it will make a beautiful decoration, one that you helped make. Custom maps can also be great wedding presents, retirement and going away presents or just-because presents :)

## WHAT YOU'LL GET

**A custom hand-drawn piece that tells your story through landmarks. The custom artwork will be shipped to you via USPS. Please read the artist (natARTlie) terms for more information.**

## PROCESS

- Let's chat about your project :)
- I request a **50% deposit** before commencing any project: Venmo, Paypal, Credit Card payments via Square, Checks, Cash all accepted.
- Checks need to clear before the project commences.
- Once you've selected the landmarks to include, you will receive 4-6 initial sketches with layout options.
- Once you've looked the sketches over and selected the one that makes your heart flutter, I can make any adjustments you'd like in the second, **and final** round of sketches.
- **Please note**, two rounds of sketches (initial and one revision) are included in the price. For additional rounds of sketches, an hourly fee of \$40 will be incurred.
- Once all systems are a go, the final artwork will be created.
